

POMEDOR & The Levantine Ceramic Project – 2014 Mini-Workshop 3
Towards an interconnected network of ceramic databases
Maison de l'Orient et de la Méditerranée, Lyon – Monday, March 17th, 2014

POMEDOR (www.pomedor.mom.fr) and the LCP (www.levantineceramics.org) will host a workshop devoted to issues of ceramic database linkages and interoperability, and to the development of search and statistical tools to enhance database functionality.

PROGRAM

- 9h-9h30: Interconnecting ceramics databases: introduction and scope – Y. Waksman (CNRS Lyon)
- 9h30-10h: Digital Humanities in a European context – M. Burghardt (EHESS Lyon)
- 10h-10h20: The National Roman Fabric Reference Collection (UK): Implementation and Development as an Online Resource – R. Tomber (British Museum, London)
- 10h20-10h40: *coffee break*
- 10h40-11h: The Levantine Ceramics Project (LCP) – A. Berlin (Boston University)
- 11h-11h20: Collaborative programming via an application programming interface (API) – R. Alwani (Lachmann Technologies, Singapore)
- 11h20-13h: Implementation and interconnection of elemental data in the LCP Database – Discussion
- 13h-14h30: *lunch break*
- 14h30-15h: Data integration and database federation – J. Darmont, A. Öztürk (Lyon University)
- 15h-15h30: Statistical options in Ceradat (Demokritos, Athens) – A. Hein (Demokritos, Athens)
- 15h30-16h: Introduction to data mining and statistics in the framework of ceramics databases – S. Lallich (Lyon University), L. Eyango (CNRS Lyon)

This program is organized with the support of the laboratories “Archéométrie et Archéologie” and ERIC.
